

FOR IMMEDIATE RELEASE

Bradleys, Inc. Earns Prestigious TECO-Westinghouse Blue Diamond Award

Gregory, TX (February 2, 2015) Bradleys, Inc., a nationally-recognized leader in the electric motor repair industry, is pleased to have been recognized as a TECO-Westinghouse Blue Diamond Tier I Supplier for 2013. Bradleys has provided large electric motor repair, rewinding, horizontal and vertical motor load testing, CNC machining, field services, new motor sales, and climate-controlled motor storage to petrochemical, refining, manufacturing and mining industries for over 85 years. The company's 110,000 square foot facility rests in the heart of South Texas, just sixty miles from the prolific Eagle Ford Shale oil fields, and employs over 100 motor repair and testing professionals.

The prestigious Blue Diamond Tier I Award is awarded to less than 1% of all TECO-Westinghouse suppliers worldwide. The award scoring process requires outstanding excellence in the following areas: Quality, Cost, Delivery and Service. "A supplier has to rank at 95% or above in all four categories to be recognized as a Tier I supplier, said a TECO-Westinghouse's Supply Chain spokesperson, "and it takes a solid 98% to reach a level of excellence worthy of a Blue Diamond Award." "Time and time again, Bradleys has continued to prove itself a reliable and dependable organization, meeting our delivery schedules, and providing high quality service, while maintaining competitive pricing. These are only a few reasons Bradleys, Inc. was selected to receive the Blue Diamond Award. The Blue Diamond Award is only given to those suppliers that are the best of the best," he said.

In addition to the Blue Diamond Award, TECO-Westinghouse also awarded Bradleys the "Outstanding Delivery" Award and the "Outstanding Quality" Award for 2013. Bradleys' performance in these areas ranked at 100%.

"Bradleys is honored to have received the Blue Diamond award," said Jim Williams, Jr., CEO of Bradleys. "The recognition of our team's customer-driven focus and performance is much appreciated."
